WORK EXPERIENCE

IT Futurz

React Native Intern | Aug 2025 – Oct 2025

- Developed a delivery workflow system in a React Native (Expo) app, enabling users to create and track pickup-to-drop orders with real-time status updates.
- Reduced delivery latency by ~40% using WebSocket-based tracking and implemented feature flags for dynamic runtime control without redeployment.

PROJECTS

Univent – An Event Management Application ([live](#)) ([code](#))

- **Tech-Stack:** React-Native, Expo, TypeScript, Node.js, Express.js, PostgreSQL, Vercel, Jest.
- **Features:**
 - Designed a real-time event discovery and registration platform that reduced search time by 20% and streamlined the user's registration flow.
 - Implemented a user authentication system with push notifications for event reminders, which led to a slight increase in user engagement.

AxoKaze – A Unified Dashboard Application ([live](#)) ([code](#))

- **Tech-Stack:** React, TypeScript, Vite, Tailwind CSS, Zustand, React Router, Axios, Zod, Recharts.
- **Features:**
 - Built a unified dashboard integrating 3 external APIs (PokéAPI, Ergast F1, WeatherAPI) with optimized data fetching and caching using Zustand.
 - Implemented secure authentication supporting email/password with OTP verification and Google OAuth 2.0, with JWT-based auto-refresh tokens.

Nextry – AI Powered Next.js Starter Platform ([live](#)) ([code](#))

- **Tech-Stack:** Next.js, TypeScript, Redux Toolkit, Supabase, Prisma, Gemini, Vercel.
- **Features:**
 - Built Nextry, a production-ready Next.js platform with authentication, protected routing, and Gemini AI integration.
 - Implemented persistent AI interactions with multi-tenant data isolation and feature flags for dynamic control.
