TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL (PostgreSQL), HTML/CSS

Frameworks & Libraries: React, React Native (Expo), Next.js, Vite, Tailwind CSS/Unwind, Redux Toolkit, Zustand

Backend & Databases: Node.js, Express.js, Redis, PostgreSQL

Tools & Platforms: Git/GitHub, Postman, Ubuntu/Linux, Vercel, EAS (Expo Application Services)

Testing: React Testing Library

EXPERIENCE

React Native Intern

IT Futurz

Aug. 2025 – Oct. 2025

(On-Site) Surat, Gujarat, India

- Developed a delivery workflow system in a React Native (Expo) app, enabling users to create and track pickup-to-drop-off orders with real-time status updates.
- Reduced delivery latency by 40% using WebSocket-based tracking and implemented feature flags for dynamic runtime control without redeployment.
- Integrated map-based pickup/drop locations, vehicle selection, and fare estimation, enabling users to configure deliveries and view estimated costs before placing orders.
- Built reusable React Native screens and navigation flows using Expo Router and bottom sheet components, improving modularity and consistency across delivery and tracking workflows.

PROJECTS

Protected Notepad | *Next.js, TypeScript, CryptoJS, Prisma, PostgreSQL* | [\[live\]](#) [\[code\]](#)

July 2026 – Aug. 2026

- Built a password-protected web notepad with slug-based document access using Next.js and TypeScript.
- Implemented client-side AES-256-GCM encryption with PBKDF2-based key derivation for secure storage.
- Developed document CRUD operations using Prisma, PostgreSQL, and Next.js Server Actions.
- Built responsive CodeMirror editor workflows with keyboard shortcuts and unsaved-changes detection.

Nextry | *Next.js, TypeScript, Redux Toolkit, Supabase, Prisma, Gemini* | [\[live\]](#) [\[code\]](#)

Mar. 2026 – Jun. 2026

- Designed and built a production-ready AI-powered Next.js platform with authentication and protected routing.
- Integrated Gemini AI for persistent, context-aware user interactions and responses.
- Implemented multi-tenant data isolation with Prisma and Supabase for secure user-specific data management.
- Implemented feature flags and dynamic platform controls to streamline release management and overall deployment.

Minimal | *React Native, Expo, TypeScript, Redux Toolkit, Supabase, Unwind* | [\[code\]](#)

Nov. 2025 – Jan. 2026

- Built a cross-platform React Native application with Expo Router and reusable component architecture.
- Implemented Google and Discord OAuth authentication with Supabase and protected navigation flows.
- Developed reusable UI components using React Native Reusables, Unwind, and shadcn/ui.
- Integrated Redux Toolkit, persistent storage, theming, and interactive component experiments.

Univent | *React Native, Expo, TypeScript, Node.js, Express.js, PostgreSQL* | [\[code\]](#)

Jan. 2025 – Aug. 2025

- Built a real-time event discovery and registration platform with React Native and Expo.
- Implemented JWT-based authentication with secure session management using AsyncStorage.
- Developed event creation, registration, and personalized event management features.
- Integrated push notifications for event reminders and important user updates.

EDUCATION

Parul University (Parul Institute of Technology)

Bachelor of Technology (B.Tech) in Computer Science and Engineering

Vadodara, Gujarat, India

Nov. 2021 – Nov. 2025
